EPA considers the international maximum residue limits (MRLs) established by the Codex Alimentarius Commission (Codex), as required by FFDCa section 408(b)(4). There are no Codex MRLs established on parsnip, root; chickpea, edible podded; chickpea, succulent shelled; or any of the commodities in the Vegetable, legume, pulse, bean, dried shelled, except soybean, subgroup 6-22E.

<p>The proposed US tolerances for expansions to crop subgroups 6-22A and 6-22C are not harmonized with similar individually established slightly lower Codex MRLs for these commodities. The US tolerances are slightly higher because the US tolerance expression includes the parent compound and a metabolite, while the Codex tolerance expression includes only the parent compound.</p>
