NOTIFICATION

Corrigendum

The following communication, received on 23 July 2025, is being circulated at the request of the Delegation of the United Kingdom.

Proposed GB MRLs for emamectin amending the GB MRL Statutory Register

The United Kingdom would like to advise Members of an error in notification G/SPS/N/GBR/94, 'Proposed GB MRLs for emamectin amending the GB MRL Statutory Register'.

This corrigendum amends an error in the original notification. Two links to the supporting document were provided in section 6. One of these links contained an error so did not work correctly. The correct web address was correctly included in the other link.

To clarify, the correct link to the supporting document is: [The review of the MRLs for emamectin in or on lettuces and milk](#).

There has been no change to the notified document itself, and the correct document remains available.

The final date for comments, adoption and publication on this notification remains unchanged.
