6. Description of content: The preparation covered by the Act was authorised for a period of ten years as a feed additive for pigs, poultry and ornamental birds in the additive category 'technological additives' and in the functional group 'substances for the reduction of the contamination of feed by mycotoxins'. An application was submitted for the renewal of the authorisation of this preparation in accordance with article 14 of Regulation (EC) No 1831/2003. Based on the favourable conclusions of a scientific assessment of the dossier submitted by the applicant, conducted by the European Food Safety Authority (EFSA), the authorisation of this preparation as a feed additive for pigs, poultry and ornamental birds is renewed under certain conditions detailed in the Annex to the Act. A transitional period is included for the interested parties to meet the new authorisation's requirements.
