NOTIFICATION

Corrigendum

The following communication, received on 10 July 2026, is being circulated at the request of the Delegation of the European Union.

Maximum residue levels for azocyclotin, chlorfenapyr, cyhexatin, dicofol, endosulfan, fenarimol, fenpropathrin and profenofos in or on certain products

This corrigendum corrects an error in Annex V of draft Commission Regulation amending Annexes II, III and V to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for azocyclotin, chlorfenapyr, cyhexatin, dicofol, endosulfan, fenarimol, fenpropathrin and profenofos in or on certain products (Text with EEA relevance), notified on 26 June 2026. In the Annex V, the MRL for fenpropathrin for the categories 0620000 to 0870990 is an unchanged (0.02*), whereas these categories should be marked 0.05*.

The correct version of Annex V is the following:
