NOTIFICATION

Corrigendum

The following communication, received on 29 July 2026, is being circulated at the request of the Delegation of the United States of America.

Epyrifenacil; Pesticide Tolerances Final Rule

EPA issued a final rule in the Federal Register of 30 June 2026, establishing tolerances for residues of epyrifenacil (CASRN 353292-31-6) in or on multiple commodities requested by Valent U.S.A. LLC under the Federal Food, Drug, and Cosmetic Act (FFDCA). That document inadvertently issued incorrect tolerances for corn, field (forage, stover); wheat (forage, hay, straw); and soybean (forage, hay). This document corrects that final regulation. This rule is effective on 28 July 2026. Objections and requests for hearings must be received on or before 28 September 2026.
