6. Description of content: This regulation establishes tolerances for residues of carboxin in or on multiple crops that are discussed in the US Federal Register. Under the Federal Food, Drug, and Cosmetic Act (FFDCA), UPL Delaware Inc. submitted a petition to EPA requesting that EPA establish a maximum permissible level for residues of this pesticide in or on the identified commodities. In making its tolerance decisions, EPA seeks to harmonize US tolerances with international standards whenever possible, consistent with US food safety standards and agricultural practices. EPA considers the international maximum residue limits (MRLs) established by the Codex Alimentarius Commission (Codex), as required by FFDCA section 408(b)(4). The Codex has not established MRLs for carboxin in or on any commodities.
