MRLs for these substances in certain commodities are changed: either increased or lowered. Lower MRLs are set after updating the limits of determination and/or deleting old uses which are not authorised any more in the European Union or for which a human health concern may not be excluded. The residue definitions of the substances have also been updated.

Based on this opinion the Regulation (EC) No 396/2005 should therefore be amended following a risk analysis approach.</p>
