Committee on Sanitary and Phytosanitary Measures

Original: English

NOTIFICATION

Addendum

The following communication, received on 23 June 2017, is being circulated at the request of the Delegation of the United States of America.

Notice of Availability of Data Sheets for Taxa of Plants for Planting that are Quarantine Pests or Hosts of Quarantine Pests

The Animal and Plant Health Inspection Service (APHIS) is advising the public that it is adding 22 taxa of plants for planting that are quarantine pests and 34 taxa of plants for planting that are hosts of eight quarantine pests to its lists of taxa of plants for planting whose importation is not authorized pending pest risk analysis. A previous notice made datasheets that detailed the scientific evidence APHIS evaluated in making the determination that the taxa are quarantine pests or hosts of quarantine pests available to the public for review and comment. This notice responds to the comments received and makes available final versions of the datasheets, with changes in response to comments.
