NOTIFICATION

Corrigendum

The following communication, received on 12 June 2018, is being circulated at the request of the Delegation of the United States of America.

Alpha-cypermethrin; Pesticide Tolerance; Correction

This final regulation amends existing tolerances for residues of alpha-cypermethrin in or on fruit, citrus group 10-10 and hog fat. EPA is modifying these tolerances under the Federal Food, Drug, and Cosmetic Act (FFDCA) to correct an error in a previous rulemaking that established these tolerances at an unintended level. This regulation is effective 5 June 2018. Objections and requests for hearings must be received on or before 6 August 2018. The original proposed rule for this correction can be found in the Federal Register of 26 December 2017 (Volume 82, Number 246) Rules and Regulations; Pages 60940-60943 or online at <https://www.gpo.gov/fdsys/pkg/FR-2017-12-26/html/2017-27806.htm>.

Text(s) available from: ☐ National Notification Authority, ☐ National Enquiry Point.
Address, fax number and e-mail address (if available) of other body:
