5. Title of the notified document: Notice of Modification to the <i>List of Permitted Colouring Agents</i> to Enable the Use of Calcium Carbonate in Unstandardized Confectionery - Reference Number: NOM/ADM-0124. Language(s): English and French. Number of pages: 3 and 4 https://members.wto.org/crnattachments/2018/SPS/CAN/18_4871_00_e.pdf https://members.wto.org/crnattachments/2018/SPS/CAN/18_4871_00_f.pdf
6. Description of content: Health Canada's Food Directorate received a food additive submission seeking approval for the use of calcium carbonate as a colouring agent in the manufacture of hard and soft candies and in inks for writing on various confections. Calcium carbonate is already permitted as food additive for use in Canada in various foods, including unstandardized confectionery, in the <i>List of Permitted Emulsifying, Gelling, Stabilizing or Thickening Agents</i> (https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted/4-emulsifying-gelling-stabilizing-thickening-agents.html), the <i>List of Permitted pH Adjusting Agents, Acid-Reacting Materials and Water Correcting Agents</i> (https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted/10-adjusting-agents.html), and the <i>List of Permitted Food Additives with Other Accepted Uses</i> (https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted/8-other-accepted-uses.html). As no safety concerns were raised through Health Canada's assessment, the Department has enabled the use of the food additive calcium carbonate, as described in the information document below, by updating the <i>List of Permitted Colouring Agents</i> (https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/food-additives/lists-permitted/3-colouring-agents.html) effective 6 September 2018. The purpose of this communication is to publically announce the Department's decision in this regard and to provide the appropriate contact information for any inquiries or for those wishing to submit any new scientific information relevant to the safety of this food additive.
