6. Description of content: Regulation (EU) 2016/429 on transmissible animal diseases ('Animal Health Law') establishes a single harmonised list of transmissible animal diseases ('listed diseases') which pose a risk to animal or public health in the Union and which are relevant for the Union intervention. This list comprises of five diseases set out in Article 5(1) of this Regulation, and diseases set out in its Annex II, which is amended by the notified Regulation. <p>The list of animal diseases was reviewed by the Commission based on set criteria pre-determined in the basic regulation relevant to protect animal and public health in the Union. The notified Regulation (EU) 2018/1629 amends that Annex II accordingly, by using the mentioned pre-set criteria. The list has been developed following a comprehensive science based preparatory work, largely based on the scientific opinions provided for this purpose by EFSA.</p> <p>The list of animal diseases in this regulation takes account of the OIE international standards and is created with a view to focus the Union intervention to the diseases for which harmonised measures need to be taken at the Union level. The management of diseases listed by the OIE but not listed in Regulation (EU) 2018/1629 will not be managed at EU level but could be managed by the EU member States at national level.</p> <p>The date of application of this Regulation is 21 April 2021.</p>

7.	Objective and rationale: <input type="checkbox"/> food safety, <input checked="" type="checkbox"/> animal health, <input type="checkbox"/> plant protection, <input checked="" type="checkbox"/> protect humans from animal/plant pest or disease, <input type="checkbox"/> protect territory from other damage from pests.
8.	<p>Is there a relevant international standard? If so, identify the standard:</p> <p><input type="checkbox"/> Codex Alimentarius Commission (e.g. title or serial number of Codex standard or related text):</p> <p><input type="checkbox"/> World Organization for Animal Health (OIE) (e.g. Terrestrial or Aquatic Animal Health Code, chapter number):</p> <p><input type="checkbox"/> International Plant Protection Convention (e.g. ISPM number):</p> <p><input checked="" type="checkbox"/> None</p> <p>Does this proposed regulation conform to the relevant international standard?</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If no, describe, whenever possible, how and why it deviates from the international standard: The listing of diseases in Regulation (EU) 2018/1629 is in line with the general principles set up in the OIE Terrestrial and Aquatic Animal Health Codes. It serves for the EU internal management of animal diseases.</p> <p>The list is in general shorter (narrower) than the OIE list of diseases because it serves a different purpose, i.e. defining animal diseases that are addressed at Union vs. member State level.</p>
