5. Title of the notified document: Order Imposing Conditions in Relation to Secondary Control Zones In Respect of African Swine Fever. Language(s): English and French. Number of pages: 4 and 5

6.	Description of content: The Canadian Food Inspection Agency (CFIA) has implemented new import requirements for select feed ingredients imported from countries identified as posing a potential concern with respect to African Swine Fever (ASF). The identified products will require an import permit prior to importation from the specified countries and the conditions in the implementing order and the import permit will need to be met. These conditions include heat treatment and/or hold times (depending on the product in question) designed to mitigate the risk of contamination of these products with the African Swine Fever virus.
7.	Objective and rationale: <input type="checkbox"/> food safety, <input checked="" type="checkbox"/> animal health, <input type="checkbox"/> plant protection, <input type="checkbox"/> protect humans from animal/plant pest or disease, <input type="checkbox"/> protect territory from other damage from pests.
8.	Nature of the urgent problem(s) and reason for urgent action: Emerging scientific studies have demonstrated that livestock feed contaminated with the African Swine Fever (ASF) virus is a possible pathway for the transmission of ASF and that ASF may be able to survive transoceanic shipping in feed ingredients. Given the recent spread of ASF globally and the dependence of Canada's swine industry on the export of pork products, urgent action by the CFIA is necessary.
