Committee on Sanitary and Phytosanitary Measures

Original: English

NOTIFICATION

Addendum

The following communication, received on 15 July 2021, is being circulated at the request of the Delegation of the United Kingdom.

PH/026 Pest Measures

Additional measures are proposed for the notification G/SPS/N/GBR/8 to deregulate pests (Apricot latent virus, Aucuba mosaic agent and blackcurrant yellows agent, *Epidiaspis leperii*, *Heterodera fici*, *Pseudomonas savastanoi* pv. *savastanoi*). These measures should enable trade as the import requirements associated with these pests will no longer need to be met.

G/SPS/N/GBR/8 originally introduced measures against *Prodiplosis longifila*, *Agrilus fleischeri*, *Thekopsora minima* and *Agrilus planipennis* and a prohibition on the import of *Polymnia sonchifolia* plants from entering Great Britain (England, Wales and Scotland). This notification was distributed on 2 June 2021.
