## G/SPS/N/CAN/1391/Add.1

6 January 2022

(22-0072) Page: 1/2

## **Committee on Sanitary and Phytosanitary Measures**

# Original: English/French

#### **NOTIFICATION**

#### Addendum

The following communication, received on 5 January 2022, is being circulated at the request of the Delegation of <u>Canada</u>.

## Established Maximum Residue Limit: Oxathiapiprolin

The proposed maximum residue limit (PMRL) document for oxathiapiprolin notified in G/SPS/N/CAN/1391 (dated 20 May 2021) was adopted 23 December 2021. The proposed MRLs were established via entry into the Maximum Residue Limits Database and are provided directly below:

MRL (ppm) <sup>1</sup>	Raw Agricultural Commodity (RAC) and/or Processed Commodity
0.5	Bushberries (crop subgroup 13-07B, except lowbush blueberries) <sup>2</sup>
0.4	Low growing berries (crop subgroup 13-07G, except lingonberries and cranberries) <sup>3,4</sup>
0.01	Tree nuts (crop group 14-11)

<sup>&</sup>lt;sup>1</sup>ppm = parts per million

An MRL is established for each commodity included in the listed crop groupings in accordance with the Residue Chemistry Crop Groups webpage (<a href="https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/residue-chemistry-crop-groups.html">https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/residue-chemistry-crop-groups.html</a>) in the Pesticides and Pest Management section of the Canada.ca website.

MRLs established in Canada may be found using Health Canada's Maximum Residue Limit Database (<a href="http://pr-rp.hc-sc.qc.ca/mrl-lrm/index-eng.php">http://pr-rp.hc-sc.qc.ca/mrl-lrm/index-eng.php</a>) on the Maximum Residue Limits for Pesticides webpage (<a href="https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/maximum-residue-limits-pesticides.html</a>). The database allows users to search for pesticides or for food commodities.

## This addendum concerns a:

[]	Modification of final date for comments
[X]	Notification of adoption, publication or entry into force of regulation
[ ]	Modification of content and/or scope of previously notified draft regulation
[]	Withdrawal of proposed regulation
[ ]	Change in proposed date of adoption, publication or date of entry into force
īī	Other:

<sup>&</sup>lt;sup>2</sup> Lowbush blueberries are in multiple crop subgroups and are included in crop subgroup 13-07G for this MRL action.

<sup>&</sup>lt;sup>3</sup> Lingonberries are in multiple crop subgroups and are included in crop subgroup 13-07B for this MRL action.

<sup>&</sup>lt;sup>4</sup> Cranberries are excluded from this MRL action since oxathiapriprolin is not registered for use on cranberries.

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

[ ] Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy): Not applicable

Agency or authority designated to handle comments: [ ] National Notification Authority, [ ] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

Text(s) available from: [] National Notification Authority, [X] National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

The specified MRLs have been provided above and are also accessible from the MRL webpage as indicated below:
