5. Title of the notified document: Health Canada's proposal to enable the use of grape seed extract (oligomeric proanthocyanidins) as a supplemental ingredient in foods. Language(s): English and French. Number of pages: 4
6. Description of content: Health Canada's Food Directorate completed a detailed premarket safety assessment of grape seed extract for use as a supplemental ingredient in foods, under the Supplemented Foods regulatory framework. The results of the premarket assessment support the safety of standardized grape seed extracts based on the oligomeric proanthocyanidins content. Consequently, Health Canada intends to enable the use of grape seed extract (oligomeric proanthocyanidins) by modifying the <i>List of Permitted Supplemental Ingredients</i> as described in the Notice of Proposal information document. The purpose of this communication is to publicly announce the Department's intention in this regard and to provide the appropriate contact information for any inquiries or for those wishing to submit new scientific information relevant to the safety of grape seed extract (oligomeric proanthocyanidins) when used as a supplemental ingredient in foods.
