NOTIFICATION

Addendum

The following communication, received on 18 July 2023, is being circulated at the request of the Delegation of Canada.

Established Maximum Residue Limits: Clopyralid

The proposed maximum residue limit (PMRL) document for clopyralid notified in G/SPS/N/CAN/1499 (dated 3 May 2023) was adopted 17 July 2023. The proposed MRLs were established via entry into the Maximum Residue Limits Database and are provided directly below:

MRL (ppm)¹ Raw Agricultural Commodity (RAC) and/or Processed Commodity

- 0.4 Bulb onions (crop subgroup 3-07A)
- 0.1 Bushberries (crop subgroup 13-07B)²

¹ ppm = parts per million

² An MRL of 0.1 ppm was previously established for "blueberries". This MRL is now expired, as the individual commodities of highbush blueberries and lowbush blueberries (both terms reflect current crop terminology) are now covered by the established MRL on crop subgroup 13-07B.

The commodities included in the listed crop groups/subgroups can be found on the *Residue Chemistry Crop Groups* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/residue-chemistry-crop-groups.html>) in the Pesticides section of the Canada.ca website.

MRLs established in Canada may be found using Health Canada's *Maximum Residue Limit Database* (<https://pest-control.canada.ca/pesticide-registry/en/mrl-search.html>) on the *Maximum residue limits, human health, and food safety* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/maximum-residue-limits-pesticides.html>). The database allows users to search for pesticides or for food commodities.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
