Committee on Sanitary and Phytosanitary Measures

Original: English/French

NOTIFICATION

Addendum

The following communication, received on 18 October 2023, is being circulated at the request of the Delegation of Canada.

Established Maximum Residue Limit: Rimsulfuron

The proposed maximum residue limit (PMRL) document for rimsulfuron notified in G/SPS/N/CAN/1523 (dated 18 July 2023) was adopted 11 October 2023. The proposed MRL was established via entry into the Maximum Residue Limits Database and is provided directly below:

MRL (ppm)¹ Raw Agricultural Commodity (RAC) and/or Processed Commodity

0.02 Low growing berries, except strawberries² (crop subgroup 13-07H; except lowbush blueberries³ and lingonberries⁴)

¹ ppm = parts per million

² As cranberry is the representative commodity of crop subgroup 13-07H, an MRL for the crop subgroup is established.

³ Lowbush blueberries are excluded from this MRL action as an MRL of 0.05 ppm is already established for this commodity.

⁴ Lingonberries are excluded from this MRL action as an MRL of 0.01 ppm is already established for this commodity.

The commodities included in the listed crop groups/subgroups can be found on the *Residue Chemistry Crop Groups* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/residue-chemistry-crop-groups.html>) in the Pesticides section of the Canada.ca website.

MRLs established in Canada may be found using Health Canada's *Maximum Residue Limit Database* (<https://pest-control.canada.ca/pesticide-registry/en/mrl-search.html>) on the *Maximum residue limits, human health, and food safety* webpage (<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/maximum-residue-limits-pesticides.html>).

The database allows users to search for pesticides or for food commodities.

This addendum concerns a:

- Modification of final date for comments
- Notification of adoption, publication or entry into force of regulation
- Modification of content and/or scope of previously notified draft regulation
- Withdrawal of proposed regulation
- Change in proposed date of adoption, publication or date of entry into force
- Other:

Comment period: (If the addendum extends the scope of the previously notified measure in terms of products and/or potentially affected Members, a new deadline for receipt of comments should be provided, normally of at least 60 calendar days. Under other circumstances, such as extension of originally announced final date for comments, the comment period provided in the addendum may vary.)

Sixty days from the date of circulation of the addendum to the notification and/or (dd/mm/yy): Not applicable.

Agency or authority designated to handle comments: National Notification Authority, National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

Text(s) available from: National Notification Authority, National Enquiry Point. Address, fax number and e-mail address (if available) of other body:

The specified MRL has been provided above and is also accessible from the MRL webpages as indicated below:
